August 21, 2020

To the PPRTA Board of Directors and CAC members:

PPRTA Second Quarter Progress Report 2020

Please find the following progress summary for April, May, and June 2020.

The Belvidere Avenue Improvement Project was satisfactorily closed out and remaining project funds were rolled into the Stilling Basins project. The Belvidere Avenue project remains under warranty through October 15, 2020. Next steps on the stilling basins project involve Town Staff working in conjunction with an Engineering firm to create a scope of work and kick off the project.

With respect to the Town's second quarter maintenance allocation, Town staff worked and continues working to build up road base, grade, apply mag chloride, replace under road and in right-of-way culverts, compact its gravel roads throughout the quarter as well as use the services of a third party to patch asphalt. Town staff also logged a significant number of hours engaging in operations and some modest outside assistance was also retained for this purpose.

Looking forward, Town Staff is exploring future and opportunities for much needed equipment replacement plans/equipment upgrades.

Thank you,

P. Angie Sprang, Town Manager
