February 22, 2023

To the PPRTA Board of Directors and CAC members:

PPRTA Fourth Quarter Progress Report 2022

Please find the following progress summary:

The Town of Green Mountain Falls continued to undertake all regular road maintenance practices including the filling of priority potholes on the Town's limited paved roads. With respect to the remainder of the municipal street system that remains unpaved, Town staff subjected all roads to routine grading, compaction, and drainage support operations.

With respect to the Town's Capital Project (Stilling Basin) the project is underway and approximately 75% complete. Tasks to be completed include tying the stilling basin outlet into the Lake, final grading/landscaping and finishing of road cuts. A couple of change orders were required to include a guardrail, extension of the concrete ditch and pan for drainage, the addition of a concrete headwall at the lake outlet, materials change and the inclusion of a manhole and riser. The remaining utility relocations have occurred, but the timing required a brief demobilization. Remaining work is scheduled to resume in early spring 2023.

Respectfully submitted,

Becky Frank
